Subject: Bullets on the Beverly/Bass River Dredging project for Dennis

Hi Eric,

Here are some bullets for Dennis on the Beverly Harbor/Bass River dredging project.

- We appreciate your work in addressing the issues and aftermath of the unfortunate outcome Beverly Harbor dredging project.
- We understand it's a difficult time at USACE, while we are constrained by our own limited staff and resources, please let us know if can assist in any way.
- We also have a FOIA from the City of Beverly that we'll be responding to over the next month.
- We look forward to working together moving forward to improve coordination and technical capabilities in the region to ensure this doesn't happen again in New England.

Thank you,

Regina Lyons, Chief
National Estuary Program and Marine Protection Section
US Environmental Protection Agency
